

# ALAYNA TRUTTMANN

## WORK EXPERIENCE

**Senior Design Technologist // August 2021 - Present**

**Design Technologist // June 2018 - August 2021**

Intuit, Mountain View, CA

- Partner with design teams to create React prototypes of new QuickBooks features for user testing
- Work closely with designers to polish interactions and animations to deliver pixel-perfect prototypes
- Create internal tools for Intuit designers that accelerate the design and prototyping process

**Design & Development Intern // November 2017 - May 2018**

DataChat, Madison, WI

- Redesigned front-end of a data analytics webapp to make it easier to use and follow a consistent design style
- Implemented redesign in product using React and SCSS
- Created an autocomplete feature to make it easier for users to recall complex chatbot commands and type them quickly

**Design Technologist Intern // June - August 2017**

Intuit, Mountain View, CA

- Developed data visualization components that allowed designers to manipulate chart labels, colors, and datasets without editing code
- Used React and D3 to generate the visualizations and Storybook to host them in a designer-friendly editable environment

**Explorer Intern // June - August 2016**

Microsoft, Redmond, WA

- Researched, designed, and developed new features for an experimental organizational tool for Windows
- Used C# and XAML to add a file preview feature to the product

## PROJECTS

See more at [alaynatruttmann.com](http://alaynatruttmann.com)

**Pyro // February 2020 - Present**

- Developed a drag-and-drop prototyping tool that leverages Intuit Design System components and supports custom data and logic
- Uses React with SCSS as the front-end and Firebase as the back-end

**Intuit Expert Portal // November - December 2020**

- Prototyped an updated vision of a customer service portal that better aligns with the Intuit Design System
- Delivered React code to production development team to accelerate the release of new components
