AWARDS & ACTIVITIES

ACM's Women in Computing

Web Mistress for the UW
Chapter of ACM-W. Honored
by the CS department for my
contributions in May 2017.

National Center for Women & Information Technology

Won the NCWIT Wisconsin
Aspirations in Computing
Award in January 2014.

Dean's List

May 2015

EDUCATION

University of Wisconsin-Madison // September 2014 - May 2018
Major: Computer Science // Certificates: Digital Art, Digital Studies
GPA: 3.599

WORK EXPERIENCE

Design Engineer Intern // June - August 2017
Intuit // Mountain View, CA

Bridged the gap between designers and product developers for QuickBooks Online through creating high fidelity prototypes, data visualization components, and motion graphics.

Explorer Intern // June - August 2016
Microsoft // Redmond, WA

Product manager and software developer for the Office Experience Organization researching, designing, and developing new features for Microsoft Cache - a (unreleased) Windows and iOS app.

Graphic Designer // September 2015 - Present
Center for Quick Response Manufacturing // Madison, WI
Design brochures, posters, flyers, email templates, and website for company conferences and advertisements.

Graphic Design Intern // May - August 2015
Epic // Verona, WI
Assisted Events & Design team with event preparation and graphic design projects such as signs, flyers, posters, and decoration graphics.

PROJECTS

PlanIt // February - April 2017
Collaborated with a team to develop a travel planning app for the UW NEST Software Contest. Designed and coded the front end of the app using Ionic, a cross-platform development framework using web technologies.

Draw 3D // April - May 2017
Created a virtual reality app for Google Cardboard using Processing for Android. Draw3D allows you to "draw" in 3D by placing cubes of various sizes and colors in a virtual environment.

WACM Website // January 2017
Completely redesigned the UW Chapter of ACM-W's website and branding to give it a more modern style and incorporate responsive design.
