

# ALAYNA TRUTTMANN

## WORK EXPERIENCE

**Design Technologist // June 2018 - Present**  
Intuit, Mountain View, CA

- Partner with design teams to create React prototypes of new QuickBooks features for user testing
- Work closely with designers to polish interactions and animations to deliver pixel-perfect prototypes
- Create internal tools for Intuit designers that accelerate the design and prototyping process

**Design & Development Intern // November 2017 - May 2018**  
DataChat, Madison, WI

- Redesigned front-end of a data analytics webapp to make it easier to use and follow a consistent design style
- Implemented redesign using React and SCSS
- Created an autocomplete feature to make it easier for users to recall complex chatbot commands and type them quickly

**Design Technologist Intern // June - August 2017**  
Intuit, Mountain View, CA

- Developed data visualization components that allowed designers to manipulate chart labels, colors, and datasets without editing code
- Used React and D3 to generate the visualizations and Storybook to host them in a designer-friendly editable environment

**Explorer Intern // June - August 2016**  
Microsoft, Redmond, WA

- Researched, designed, and developed new features for an experimental organizational tool for Windows
- Used C# and XAML to add a file preview feature to the product

## PROJECTS

See more at [alaynatruttmann.com](http://alaynatruttmann.com)

**Pyro // February 2020 - Present**

- Drag-and-drop prototyping tool that leverages Intuit Design System components and supports custom data and logic
- Uses React with SCSS as the front-end and Firebase as the back-end

**Intuit Expert Portal // November - December 2020**

- Prototype an updated vision of a customer service portal that better aligns with the Intuit Design System
- Delivered React code to production development team to serve as a basis for updated components

## EDUCATION

**UW-Madison**  
**September 2014 - May 2018**

- Major: Computer Science
- Certificates (Minors):  
Digital Art, Digital Studies

## TOOLS & SKILLS

React, JavaScript, SCSS, CSS  
animations, Styled Components,  
Git, Firebase, After Effects

High-fidelity prototyping,  
front-end web development,  
UI/UX design, video animation,  
user interviews

## VOLUNTEERING

**Girls Who Code Mentor**  
**June - August 2019**

Met weekly with a high school student to discuss topics such as college and working in tech.

**Panel Speaker**  
**September 2020 - Present**

Spoke to students about my experience as a woman in tech through these organizations:

- Superposition UC Irvine
- Tech Girls United
- The Salubrious Organization
