

ALAYNA TRUTTMANN

WORK EXPERIENCE

Design Technologist // June 2019 - Present
Intuit, Mountain View, CA

- Develop React prototypes of new QuickBooks features to be used for user testing and presentations
- Animate educational videos on front-end development topics for developers and designers using After Effects
- Assist production teams with design updates including SCSS changes to QuickBooks products and design system components

Design & Development Intern // November 2017 - May 2018
DataChat, Madison, WI

- Redesigned front-end of a data analytics webapp to make it easier to use and follow a consistent design style
- Implemented redesign changes using React and SCSS
- Created an autocomplete feature to make it easier for users to recall complex chatbot commands and type them quickly

Design Engineer Intern // June - August 2017
Intuit, Mountain View, CA

- Developed data visualization components that allowed designers to manipulate chart labels, colors, and datasets without editing code
- Used React and D3 to generate the visualizations and Storybook to host them in a designer-friendly editable environment

Explorer Intern // June - August 2016
Microsoft, Redmond, WA

- Researched, designed, and developed new features for an experimental organizational tool for Windows
- Used C# and XAML to add a file preview feature to the product

PROJECTS

Calf Tracker // September - December 2017

- Designed and developed an Android app to help farmers record details about calves, such as weight, ID, and vaccination dates
- App features included data visualizations, a Firebase backend, and a language setting for English and Spanish

PlanIt // February - April 2017

- Worked with a team to design and develop a travel planning app for the UW NEST Software Contest
- Used Ionic, a cross-platform development framework, to create detailed itinerary pages for trips

EDUCATION

UW-Madison
September 2014 - May 2018

- Major: Computer Science
- Certificates (Minors):
Digital Art, Digital Studies

TOOLS & SKILLS

React, SCSS, JavaScript, Git

After Effects, Sketch, InDesign, Photoshop, Illustrator

Front-end development, prototyping, UI/UX design, video animation and editing
